

## Code Bloom Tech – Sponsor Pitch Document

---

### Company Overview

*Code Bloom Tech* is a youth-led technology startup based in Kenya, focused on empowering businesses and entrepreneurs through innovative digital solutions. We build websites, design creative digital assets, develop software, and offer IT support to help small businesses thrive in the digital era.

**Tagline:** *Innovating One Line at a Time.*

---

### Our Mission

To deliver reliable, affordable, and user-focused tech solutions that help African businesses grow online and become future-ready.

### Our Vision

n\*\* To be a leading provider of transformative tech services for startups and SMEs across Africa.

---

### What We Do \*\*

- Website & WordPress Development
  - Custom Software Development
  - Front-End Development
  - Logo, Banner & Poster Design
  - Database Design
  - Software Installation & Maintenance
  - IT Consulting & Support
- 

### Why We Need Support

Code Bloom Tech is growing — and with the right backing, we can:

- Expand outreach to underserved businesses
- Acquire essential tools (laptops, internet, software licenses)
- Offer free or discounted services to youth, women, and community startups
- Train and mentor more young developers

Your sponsorship or support can help scale this vision into a thriving tech impact hub.

---
